-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

The following is a response to the amendment received on September 11, 2006 which has been entered.

#### ***Response to Amendment***

Claims 8-16 are pending in the application. Claims 1-7 are cancelled.

-The objection to claims 10, 12 and 16 has been withdrawn due to applicant correcting grammar errors.

-The 102(e) rejection of claims 8-12, 14 and 15 has been withdrawn due to applicant submitting a translation of the priority document to obviate the date of the reference used in the rejection.

-The 102(b) rejection of claims 8, 12 and 14-16 has not been withdrawn due to applicant not responding and/or providing evidence as to the patentability of the claims over the reference used in the rejection.

#### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 8, 9, 12 and 14-16 are rejected under 35 U.S.C. 102(b) as being unpatentable by Frost ('358). Frost discloses a transmission having several power paths in a housing (not referenced) between an input shaft (12) and an output shaft (16) for gear shifting, the transmission has several ratio conversion devices (18, 20) that can

be engaged for forming a power flow via shifting elements (50, 56, 64), the conversion devices are at least partially located in the housing in such a way that radial and tangential forces of the conversion devices are directly transmitted to the housing through bearings (100 or 114) when a conversion device (via 62) is engaged via a shifting element (64). The shifting elements are formed as positive elements. A summing transmission is in the form of a planetary (34). The transmission is a power split countershaft (14) transmission. When the conversion ratio device is engaged, the forces are directly transmitted to a synchronizing component (62) rigidly connected to the housing.

***Allowable Subject Matter***

Claims 10 and 11 are allowed. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3681

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
